

CEMONT

WELDING & PLASMA CUTTING

PUMA S1700 GC

Heavy Duty Inverter power source for professional TIG welding with LIFT striking. Features: Improved arc stability in MMA welding thanks to the microprocessor action which adjusts ARC FORCE, HOT START and ANTI-STICK on the selected welding current. It's possible to weld using rutile, basic, inox and special electrodes. Suitable for use with generators
Welding Current Range 5 - 160amps, Duty Cycle @ 60% 140amps,
Weldable Electrodes 1.6 - 4.0m, 2 Year Warranty , 240 volt single phase, W000263662
